(a) Basis of Accounting

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

(b) Cash and Cash Equivalents

For the purpose of the statement of cash flows, the Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

(c) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

(d) Securities Transactions, Commissions and Revenue Recognition,

Securities transactions are recorded on a trade date basis. Commissions and related clearing charges are recorded on a trade date basis as securities transactions occur.

The responsibility for processing customer activity rests with the Company's clearing firm, Wedbush Securities, Inc. The Company's clearing and execution agreement provides that the clearing firm's credit losses relating to unsecured margin accounts receivable of the Company's customers are charged back to the Company in the event of customer non-performance.

In accordance with industry practice, the clearing firm records customer transactions on a settlement date basis, which is generally three business days after the trade date. The clearing firm is therefore exposed to risk of loss on these transactions in the event of the customer's inability to meet the terms of its contracts, in which case the clearing firm may have to purchase or sell the underlying financial instruments at prevailing market prices in order to satisfy its customer-related obligations. Any loss incurred by the clearing firm is charged back to the Company.

The Company, in conjunction with the clearing firm, controls off-balance sheet risk by monitoring the market value and marking securities to market on a daily basis and by requiring adjustments of collateral levels. The clearing firm established margin requirements and overall credit limits for such activities and monitors compliance with the applicable limits and industry regulations on a daily basis.

(f) Income Taxes

The Company is taxed as a partnership for federal and state income tax purposes and, thus, no provision has been recorded for income tax expense in the financial statements. In accordance with ASC 740-10-50, "Income Taxes," the Company is required to disclose unrecognized tax benefits resulting from uncertain tax positions. At December 31, 2016, the Company did not have any unrecognized tax benefits or liabilities. The Company operates in the United States and in state and local jurisdictions, and the previous three years remain subject to examination by tax authorities. There are presently no ongoing income tax examinations.

(g) Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial statement. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.
